

# CoGen Condensate Recovery

Energy Conservation Techniques i-increases Profit –Pays itself

Condensate Recovery – return System- Save 11% Elect Bill

Condensate return Ejector Pump- Steam Operated – No Electric Motor or Pump

Steam Ejector Pump

Self Driven  
No Motor  
No Electricity  
No Cost

# CoGen Condensate Recovery

**Energy Conservation Techniques i-increases Profit –Pays itself**

Condensate Recovery – return System- Save 11% Elect Bill

Condensate return Ejector Pump- Steam Operated – No Electric Motor or Pump

6 – 7.5 Ton/hr Condensate Return Systems – Self Operated No Pump or Motor

**SAVES 11% Electric/ gas Bill**

Condensate return temp 100° C

Recovery Condensate /Distilled Water back to Main Condensate Collecting tank or Feed water Tank.

RoBust design

No Electric Motor or Pump

Imported Mech Floaf Assembly

No Pumping cavitation

Operating in Submerged Conditions

A “ FIT AND FORGET” UNIT

Ideal for Drainging High Temo Cylinder Dryers

Popluation: Instalkled in Following Industries :

- M/S BE BE JAN,
- M/S GULF NISHAT,
- M/S SHERATON HOTEL,
- M/S SHAHAB DYEING,
- M/S AL ABID TEXTILES,
- M/S INTERNATIONAL TEXTILES,
- M/S LAKHANY SILK,
- M/S HANTEX DENIM,
- M/S SOORTY DENIM,
- M/S SIDDIQSONS DENIM,
- M/S GUL AHMED TEXTILE MILLS,
- M/S UNION EXPORT
- M/S DENIM CLOTHING.
